What "type beats" are and why they matter

Type beats are original sounds made to match the vibe of a particular mainstream artist, e.g., "drake type beats".

Up-and-coming artists rely on type beats because they're affordable and recognizable, offering an accessible way to spark creativity, capture trending sounds, complete unfinished songs, and connect with producers.

We use the wrong apps for songwriting

Artists pour their hearts into comments under type beats on platforms not optimized for writing songs.

Sige, gawin natin rap version para swa

Verse 1

Ang karot ay makulay, tulad ko mabutii

May mabuting pakay, di ako loko-loko.

Kumain ng pickle, single ready mingle,

Bars ko matindi, siguradong make you

Verse 2

Cheese and mayo, halo sa salad,

Ikaw ang flavor, love ko ay solid.

Tomato, lettuce, onion layers,

Ikaw ang dahilan kaya I conquer fears.

Verse 3

Kumain lang ng squash, pero heart ko

Every time I see you, my adrenaline rus

Cucumber cool pero thrill pag ikaw,

Sa salad ng buhay, ikaw ang pinaka-wc

..Chorus (ulit-ulit)
